***Final Rejection***

**The Status of Claims**

Claims 1-16 and 18-23 are pending.

Claims 16 , and 18-23 have been rejected.

Claims 1-15 are allowable.

**Claim Rejections-35 USC 112**

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The rejection of claims 20-22 under 35 U.S.C. 112, first paragraph, has been withdrawn due to the modification made in the amendment.

1. Applicants' argument filed 12/08/04 have been fully considered but they are not persuasive.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

The rejection of Claims 16 and 18 has been withdrawn due to the modification made in the amendment. However, there are still some issues to be resolved in claims 16 and 18.

Art Unit: 1625

In claims 16 and 18, the phrase “one of its variants and/or mutants” is recited. This is vague and indefinite because the specification does not explain what its variants and/or mutants are for DSM 14865. Therefore, an appropriate correction is required.

The rejection of Claims 20-21 has been maintained due to applicants’ failure to modify the claims in the amendment.

**Claim Rejections-35 USC 102**

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

The rejection of Claim 23 under 35 U.S.C. 102(a) as being anticipated clearly by Deutsche Sammlung (3/18/2002) has been maintained for the reasons of the record on 9/22/04.

**Applicants’ Argument**

2. Applicants argue the following issues:

- a. With respect to the 102(a) rejection based on Deutsche Sammlung (3/18/02), it is merely applicants’ own deposit of the microorganism in accordance with the terms of the Budapest Treaty and there is no evidence of prior knowledge by a third party.

The applicants’ argument have been noted, but these arguments are not persuasive.

Art Unit: 1625

First, with respect to the argument, the Examiner has noted applicants' argument. However, Deutsche Sammlung does disclose the isolation of Actinomycetales sp. DSM 14865 shown in the specification (page from 11, line 31 to page 12, line 2). In accordance with the terms of the Budapest Treaty, the isolation of Actinomycetales sp. DSM 14865 has become known in the domain of the public arena; therefore, it has lost its novelty regarding its patentability. Therefore, applicants' argument is irrelevant.

### *Conclusion*

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
